4D Combat Pads System

Mid-Cut

IMPROVEMENTS

- NEW carbon fiber Universal NVG mount with guaranteed no-rattle fit
- NEW USI Rapid Adjustment Dial BOA® retention system with 2-way adjustments
- NEW 4D Combat Pad ultra comfort system with phase change technology, keeping you cool in the summer and warm in the winter, while exceeding the US MIL-SPEC and outperforming all other pad systems in independent impact testing.

LEGACY FEATURES

- Industry leading ballistic proprietary thermoplastic aramid composite shell
- Removable suede split chin strap to allow for laundry, replacement or use of gas mask extender
- 4 point adjustment harness, picatinny rails, helmet VELCRO® brand fastener kit and bungees

PROTECTION LEVEL

NIJ 0106.01 Level IIIA, HP White 0401.01B Level IIIA and exceeds US MIL-SPEC for ACH helmet for 2, 4, 16, 64, 17 grain fragments.

SOD-RFS-Rail Riot Face Shield with Rail Adapter

The SOD-RFS-rail riot face shield with rail adapters is used to provide riot protection from impact, splash and fragments. It is designed to fit all United Shield International helmets with picatinny rails.

- Locks into the stowed or deployed positions and can be released with one hand.
- Tested to the NIJ 0104.02 Riot Standard.
- Protection against fluids, impact, incendiary projectiles and riot conditions.

USI BOA® Chinstrap - Rapid Adjustment Dial

The BOA® Chinstrap - Dial Adjust is the first stand-alone chinstrap to feature dual dial-adjustable fit. The BOA® Closure System provides the ultimate in stability, adjustment and fit while remaining lightweight and durable. USI BOA® System

responds to the dynamic loading conditions of a modern combat helmet. It is capable of withstanding the additional weight of headborne accessories while maintaining balance and stability.

ACH-MICH

The ACH-MICH helmet was designed to replace the in-service PASGT helmet. The ACH-MICH helmet features a reduced weight, higher cut at the back and sides and removal of the front peak. This new low profile helmet provides excellent compatibility with communications equipment, gas masks and helmet mounted night vision goggles. The helmet is tested to and exceeds the US ACH MIL-SPEC for 2,4,16,64 and 17 gr fragments.

PROTECTION LEVEL

NIJ 0106.01 Level IIIA, HP White 0401.01B Level IIIA and exceeds US MIL-SPEC for ACH helmet for 2, 4, 16, 64, 17 grain fragments.

COMBAT PAD RETROFIT KIT

The Combat Pad Retrofit Kit offers the most technologically advanced suspension system available today. This technology was originally developed for the US SOCOM and other Tier 1 first responders. The suspension system (padding) is a rate and temperature sensitive material that conforms to wearer's unique head shape. These materials provide unparalleled comfort, fit, and stability. The padding is covered in a heat and moisture wicking anti-microbial fabric. It is designed to draw perspiration away from the head and will actually cool the wearer through this evaporative process.

Improved comfort

Padding conforms to wearers individual head geometry, eliminating hot spots.

Improved Blunt Impact Protection

Our suspension technologies have shown to provide significantly better blunt impact protection than standard OEM padding.

Moisture Wicking

NanoTech fabric wicks heat and moisture away from wearer, creating a natural cooling effect.

BALLISTIC SHIELDS

E.R.T. SHIELD

The United Shield E.R.T shield is a new addition to our range of multi-functional shields. It has been designed in conjunction with officers from various tactical teams, to satisfy a need for a shield which is light and versatile, while being strong and robust. The shield is ambidextrous, so that left and right-handed operators can use the same shield quickly and without any need to change handle positions.

The integrated weapon mount provides for single-handed operation, allowing operators to deploy their weapon without exposing their arm. The shield has a tri-grip handle combined with three soft arm support handles to aid in transferring the weight of the shield and reducing fatigue in the wrists and hands. The E.R.T. shield offers increased head coverage against other shields.

BALLISTIC SHIELDS

ASSAULT SHIELD

The Assault shield has been designed in close collaboration with tactical operators to provide maximum protection, while still offering market leading ballistics and weight. The shield features an Assault tri-grip handle to offer increased stability for the shield user. This handle also has option to integrate a 1200-lumen light directly into the handle, eliminating all wires, as pictured. The Assault shield is standard with a 4" x 16" viewport and dual cut-outs to add comfort for the operator when deploying their firearm.

United Shield uses a high strength aramid, achieving the NIJ level IIIA, and meeting the NIJ 0108.01 testing standards.

BOA® POWER X

United Shield International introduces the latest innovation in wearable body armor—THE BOA® POWER X line of ballistic armor.

Borrowing from the High Performance Sporting goods market, United Shield merges the latest in performance closures with today's best body armor.

The BOA® POWER X allows the wearer the option to tighten and loosen their armor on the go. The patented closure system allows a one-handed fit adjustment, giving you the ability to tighten or loosen your armor throughout your shift. No more armor "riding up" when you sit down in your vehicle. Simply release the power dial and your armor will adjust to your seated position while maintaining a safe fit. This will also allow the passage of cooling air, providing much needed comfort without the need to take your armor off. When you need to get back into the fight, simply readjust your armor with a few turns of the dial and you are good to go. If you wear your armor externally, this allows you make fit adjustment without having to release the side straps. This stops your armor from flapping around if unattached eliminating a safety issue in the event of a vehicle crash or the need to quickly exit your vehicle. High tech performance has finally arrived to the armor market!

CONCEALABLE

FEATURES

- One handed rapid size adjustment
- Ability to make micro adjustments seamlessly through one-handed manipulation. This allows end user to make fit adjustments through their shift without having to remove their shirt, by tightening or loosening the vest
- Immediate tension release with pull of dial. Enables complete tension release when sitting or operating in any other situation that changes the fit of the vest
- Ability to custom size through use of generic sizes. Cables allow for the vest to be tightened up to 6 inches of girth adjustment to minimize vest sizes required to custom fit agency officers
- Use of aerospace aluminum wiring to provide tensioning and fit, while providing an unbreakable security seal on the vest
- Custom designed dual quick release clips to allow for easy donning and doffing of the carrier
- High Performance Microfiber outer shell
- Comfort Inner fabric constructed of moisture wicking and cooling fabrics

EOD EQUIPMENT

OLYMPIA GUARDIAN BOMB SUIT

The Olympia Guardian Bomb suit is a complete EOD protective garment comprised of:

- Helmet with comfort liner, visor, light and adjustable demister, battery pack and integrated communications microphone and ear pieces.
- Jacket with sleeves, collar and integrated back protector
- Trousers with over boots
- Three part blast plates

This third generation suit includes many new and innovative features to improve the comfort and maneuverability.

The Olympia Guardian Bomb suit has been designed to provide excellent protection against fragmentation, blast overpressure, blunt trauma and heat/flame ingress.

KEY FEATURES

- Berry Compliant (Made in the USA)
- Total Weight Size Medium including helmet 62.86 lbs
- Zonal Armor System
- Integral Back Protector
- Comes Standard with Sentinel Gen. III Helmet
Contender Helmet also available
- Sizing - 3 Sizes of helmets - 6 sizes of suits
- Same excellent blast mitigation and fragmentation protection as predecessor Olympia Excel

SENTINEL GEN 3 EOD HELMET

The Olympia Guardian Bomb Suit offers our revolutionary helmet system, the Sentinel Gen III helmet. This helmet is an upgrade from our widely popular Sentinel helmet. The helmet is constructed from 100% Para-aramid fibers, providing excellent weight to performance characteristics. Robust two part epoxy paint in a range of colors.

The Sentinel helmet includes:

- Helmet shell with high performing comfort liner and four point X-harness with adjustable chin cup for superior retention
- The visor has two locking positions: down and up
- There is a low noise helmet mounted fan assembly with speed adjuster and helmet mounted LED light
- Provision for communication microphone and hearing ear pieces

This helmet has our newly upgraded fan and battery compartment, offering a sleeker, lighter weight design option for the end user. The adjustable fan is run off of standard AA batteries. The Sentinel helmet is CBRN compatible.

OLYMPIA BOMB DISPOSAL SUIT

The Olympia bomb suit is United Shield's latest and most advanced design. It is a complete EOD/IEDD ensemble and provides the highest levels of protection from the four main threats encountered by EOD/IEDD operators (fragmentation, overpressure, impact and heat).

The outer material is constructed from certified flame retardant material, such as Nomex® Delta T. This material can also be used to cover the bomb suit helmet, providing optimal protection for EOD/IEDD operators from the flame associated with blasts from explosive devices.

A key feature of the Olympia bomb suit is its zonal armor system, which provides outstanding blast protection with maximum mobility, flexibility and comfort. The highest protection level is afforded to life-critical areas of the body, such as the neck, chest and groin, with STANAG 2920 V50's ranging from 1,900 m/sec to 450 m/sec. These levels of protection can be adjusted to suit individual customer's needs.

EOD EQUIPMENT

BOMB SUPPRESSION KIT WITH SAFETY CIRCLE

The United Shield Bomb Suppression Blanket and Safety Circle has been designed to provide a portable flexible, lightweight and compact means of protection from EOD and IEDD devices. It is tough and durable, being manufactured from multiple layers of treated aramid ballistic fabric sewn into a fire retardant and water repellent outer cover. It can be quickly and easily folded for storage in the water repellent carry bag, while robust webbing carry handles make for ease of transportation and rapid deployment.

RIOT GEAR

906 TACELITE EPR RIOT DUTY HELMET

Our most popular tactical helmet provides outstanding protection and superior comfort. The model 906 features an optically clear, UV resistant, polycarbonate face shield with an integrally molded liquid seal. The model 906 is trusted by thousands of law enforcement agencies around the world to protect their valuable men and women in any riot situation.

- TacElite EPR® polycarbonate alloy helmet shell
- Expanded polystyrene liner with padded, sweat-wicking inner liner
- Permanently mounted neck protector with Kydex® penetration shield and shock absorbent foam pad
- Detachable .150" (3.8mm) thick face shield with liquid seal prevents liquids from seeping into officer's eyes. Molded lip on top edge of face shield prevents shield from closing over integral visor and striking the face.
- Double D-ring fastener provides maximum strength and slip resistance
- Snap-on nape pad with Kydex® penetration shield, shock-absorbent foam pads and chemical-resistant black Cordura® cover
- Plastic chin cup for added comfort when harness is tightened.
