

The United Shield International offers the DK6 H.150s Riot face shield. This face shield is used to provide riot protection from impact, splash and fragments. This face shield is used in conjunction with an ACH/MICH style helmet and is available in a retro fit application to the helmet.

This face shield offers an integral rubber seal, providing a liquid barrier at the helmet / shield interface. The shield locks into the stowed or deployed positions and can be released with one hand. Pivot and lock assembly can be transferred to the right or left of the shield for individual preference

This face shield has a length of 6” to accommodate for the use of gas masks.
