

United Shield International has a wide range of ballistic shield that incorporate the latest materials technology and a handle system that has been ergonomically developed over a number of years. These ballistic shields are lightweight and designed to provide a multi-hit capability. Developed to give unmatched protection while the unique horizontal handle design allows for comfortable ambidextrous use and optimum mobility. It provides the tactical specialist with resistance to ballistic and fragmentation threats. To reduce damage to the edges of the shield, there is a special hard wearing resistant material that lines the shield.

This shield is available in a standard range of sizes.

All Standard handles are available on each shield

Standard 4" x 16" viewport included

### Armor Solution

United Shield uses high strength aramid achieving the NIJ level IIIA, meeting the NIJ 0108.01 testing standards.
