

United Shield International is the exclusive manufacturer of the Sniper Shield. This shield is a unique design that allows for the shield to be deployed in any terrain or conditions to offer protection to a sniper. The legs are adjustable and can be folded away for storage when not in use.

The shield has several, multi functional uses. It can be used as a sniper shield, however, with its handle system it can also be used as an entry shield with a cut out for weapon deployment. A ballistic flap is also available to cover the shooting slot if complete coverage is required.

This shield is available in NIJ IIIA, III and IV
