COMBAT PAD RETROFIT KIT

The Combat Pad Retrofit Kit offers the most technologically advanced suspension system available today. This technology was originally developed for the US SOCOM and other Tier 1 first responders. The suspension system (padding) is a rate and temperature sensitive material that conforms to wearer's unique head shape. These materials provide unparalleled comfort, fit, and stability. The padding is covered in a heat and moisture wicking anti-microbial fabric. It is designed to draw perspiration away from the head and will actually cool the wearer through this evaporative process.

Improved comfort

Padding conforms to wearers individual head geometry, eliminating hot spots.

Improved Blunt Impact Protection

Our suspension technologies have shown to provide significantly better blunt impact protection than standard OEM padding.

Moisture Wicking

NanoTech fabric wicks heat and moisture away from wearer, creating a natural cooling effect.

BALLISTIC SHIELDS

E.R.T. SHIELD

The United Shield E.R.T. shield is an addition to our range of multi-functional shields. It has been designed in conjunction with officers from various tactical teams, to satisfy a need for a shield which is light and versatile, while being strong and robust. The shield is ambidextrous so that left and right-handed operators can use the same shield quickly and without any need to change handle positions.

The integrated weapon mount provides for single-handed operation, allowing operators to deploy their weapon without exposing their arm. The shield has a tri-grip handle combined with three soft arm support handles to aid in transferring the weight of the shield and reducing fatigue in the wrists and hands. The E.R.T. shield offers increased head coverage against other shields

EOD EQUIPMENT

OLYMPIA GUARDIAN BOMB SUIT

The Olympia Guardian Bomb suit is a complete EOD protective garment comprised of:

- Helmet with comfort liner, visor, light and adjustable demister, battery pack and integrated communications microphone and ear pieces.
- Jacket with sleeves, collar and integrated back protector
- Trousers with over boots
- Three part blast plates

This third generation suit includes many new and innovative features to improve the comfort and maneuverability.

The Olympia Guardian Bomb suit has been designed to provide excellent protection against fragmentation, blast overpressure, blunt trauma and heat/flame ingress.

KEY FEATURES

- Berry Compliant (Made in the USA)
- Total Weight Size Medium including helmet 62.86 lbs
- Zonal Armor System
- Integral Back Protector
- Comes Standard with Sentinel Gen. III Helmet
Contender Helmet also available
- Sizing - 3 Sizes of helmets - 6 sizes of suits
- Same excellent blast mitigation and fragmentation protection as predecessor Olympia Excel

SENTINEL GEN 3 EOD HELMET

The Olympia Guardian Bomb Suit offers our revolutionary helmet system, the Sentinel Gen III helmet. This helmet is an upgrade from our widely popular Sentinel helmet. The helmet is constructed from 100% Para-aramid fibers, providing excellent weight to performance characteristics. Robust two part epoxy paint in a range of colors.

The Sentinel helmet includes:

- Helmet shell with high performing comfort liner and four point X-harness with adjustable chin cup for superior retention
- The visor has two locking positions; down and up
- There is a low noise helmet mounted fan assembly with speed adjuster and helmet mounted LED light
- Provision for communication microphone and hearing ear pieces

This helmet has our newly upgraded fan and battery compartment, offering a sleeker, lighter weight design option for the end user. The adjustable fan is run off of standard AA batteries. The Sentinel helmet is CBRN compatible.

OLYMPIA BOMB DISPOSAL SUIT

The Olympia bomb suit is United Shield's latest and most advanced design. It is a complete EOD/IEDD ensemble and provides the highest levels of protection from the four main threats encountered by EOD/IEDD operators (fragmentation, overpressure, impact and heat).

The outer material is constructed from certified flame retardant material, such as Nomex® Delta T. This material can also be used to cover the bomb suit helmet, providing optimal protection for EOD/IEDD operators from the flame associated with blasts from explosive devices.

A key feature of the Olympia bomb suit is its zonal armor system, which provides outstanding blast protection with maximum mobility, flexibility and comfort. The highest protection level is afforded to life-critical areas of the body, such as the neck, chest and groin, with STANAG 2920 V50's ranging from 1,900 m/sec to 450 m/sec. These levels of protection can be adjusted to suit individual customer's needs.

BOMB SUPPRESSION KIT WITH SAFETY CIRCLE

The United Shield Bomb Suppression Blanket and Safety Circle has been designed to provide a portable flexible, lightweight and compact means of protection from EOD and IEDD devices. It is tough and durable, being manufactured from multiple layers of treated aramid ballistic fabric sewn into a fire retardant and water repellent outer cover. It can be quickly and easily folded for storage in the water repellent carry bag, while robust webbing carry handles make for ease of transportation and rapid deployment.

RIOT GEAR

906 TACELITE EPR RIOT DUTY HELMET

Our most popular helmet provides outstanding protection and superior comfort. The model 906 features an optically clear, UV resistant, polycarbonate face shield with an integrally molded liquid seal. The model 906 is trusted by thousands of law enforcement agencies around the world to protect their valuable men and women in any riot situation.

- TacElite EPR® polycarbonate alloy helmet shield
- Expanded polystyrene liner with padded, sweat-wicking inner liner
- Permanently mounted neck protector with Kydex® penetration shield and shock absorbent foam pad
- Detachable .150" (3.8mm) thick face shield with liquid seal prevents liquids from seeping into officer's eyes. Molded lip on top edge of face shield prevents shield from closing over integral visor and striking the face.
- Double D-ring fastener provides maximum strength and slip resistance
- Snap-on nape pad with Kydex® penetration shield, shock-absorbent foam pads and chemical-resistant black Cordura® cover
- Plastic chin cup for added comfort when harness is tightened
- Optional chin pad available

CS-4 CAPTURE SHIELD

The CS-4 Capture Shield is a hand held body shield with ergonomic features. The CS-4 has an I.D. label that can be made custom to the customer. The strong double handles allow a firm grip under various conditions. This shield has superior optical quality and workmanship. This product is unique in that the design allows two people to grip with both hands on each handle. When extra holding power is needed and the handles are dielectric to prevent electrical pass through. Designed and tested exclusively for cell extraction.

The wide nylon arm strap is easily adjustable while in use. The shield has superior optical quality and workmanship.
