

LW Level III+ ERT Ballistic Shield

The United Shield Lightweight Level III+ ERT ballistic shield is a mobile high protection shield which provides multi strike protection (5 strikes) from 7.62 x 39 Ball (Mild Steel Core). This shield is water jet cut curved with an ambidextrous tri grip handle.

While the NIJ Level III rating is only tested to 7.62 x 51 NATO Ball (M80), United Shield International have built this shield to stop the additional round 7.62x39 MSC AK47, 5.56 x 45 55gr m193 and 5.56 x 45 62gr Federal Bonded. We designate this as a Level III+, as we meet the standard NIJ III and have added protection for an additional threat.

Standard 3" x 9" viewport included

Armor Solution

United Shield uses Polyethylene specific build to achieve the NIJ level III, meeting the NIJ 0108.01 testing standards. These shields are built to defeat additional rounds, giving it the III+ rating

Performance

For the LW Level III+ shield
Multi hit Capability (5 strikes)
NIJ III+ performance –
7.62 x 51 NATO Ball (M80)
7.62 x 39 Ball (Mild Steel Core)
5.56 x 45 55gr M193
5.56 x 45 62gr Federal Bonded LE22T3

Sizes and Weights
