

RRS Ballistic Shields

The United Shield R.R.S shield is a new addition to its range of multifunctional shields. The shield is ambidextrous, so that left and right handed operators can use the shield quickly. It is very adaptable when used in different tactical situations such as dynamic entry, hostage situation, domestic situations, and routine patrol. The RRS shield comes standard with our proven ERT handle design to offer the operator a wider choice of position when deploying a long weapon or hand gun. It is available in level IIIA, LW IIIA, LW III+ and available with or Without a viewport
