

Specter Gen II Wireless LED Light Single Light 5000 Lumens

The United Shield Gen II Wireless LED is the next generation in wireless LED shield lights introduced into the market. This next gen light is fully removable from the shield, 1/3 of the size and offers a 62.5% weight reduction from the first generation. With the use of low transmitting wireless signal, wires are no longer needed to penetrate or go around a shield. The light has one built in rechargeable lithium ion battery. The light features a single, 5000 Lumen LED light with 3 functional modes (Constant on, Constant turbo-strobe and Green lowlight navigation). With the use of an integrated battery, there is no longer a need for a rear battery pack. The light comes standard with a pressure pad and a remote controller. The pressure pad that can be placed on the handle to assist in ease of turning the light on and off.

Lights are able to be factory integrated or retro-fit to existing United Shield International shields.
