

The Sprint helmet has been redesigned, adding additional ballistic coverage, while not interfering with other tactical equipment. It is constructed from Para aramid material and provides lightweight, robust protection from ballistic and fragmentation projectiles and other low energy threats. This design includes factory fitted Picatinny side rails and an integrated universal night vision goggle mount complete with bungees. These Rails provide a solid platform onto which accessory attachments, such as cameras and flashlights can be quickly and easily mounted.

In addition the helmet is equipped standard with a high impact pad liner system complete with our proprietary 4 point multi adjustable X harness (for improved dimensional stability over standard H harnesses) and quick release split suede chinstrap.

Ballistic Protection

United Shield offers a broad range of helmet constructions to suit threat and weight performance criteria.
The Sprint Alpha helmet meets NIJ IIIA to NIJ 0106.01

Fragmentation Protection

Protection against fragments to V50 700m/sec (2300 fps) according to STANAG 2920 (17gr FSP) and US MIL STD 662F. Exceeds US MIL SPEC for ACH helmet for 2, 4, 16, 17, 64 grain fragments

Size and Weight

Small, Medium, Large and Extra Large
Weight 2.75 lbs

Colors

Standard Colors are Black, Tan, Olive Drab and Coyote Brown.
Most other colors are available as well as our new Hydro dip process for camo patterns such as Multicam.

Warranty and Quality Assurance

United Shield International offers a 5 year warrant on the ballistic performance of the helmet. The internal harness is warranted for a period of 2 years. United Shield International is an ISO 9001 & 14001 certified company.
