The ARK Tactical Line of vests is our latest design in specialized tactical protection. The ARK-TV was developed in conjunction with end user feedback and goal for maximum protection, modularity and maneuverability.

Our team developed a carrier that has exceeded expectations. Based on the SPEAR/BALCS cut, we have built a vest line that maximizes protection, functionality and wearability. This vest features our unique "Y" internal vent system for cooling along with our high-performance cooling mesh. Additional features such as upgradeable removable shoulder straps, G-Hook ladder adjustment system, front and rear top loading plate pockets (multi sized), split kangaroo flap, L & R mic tabs, wire routing, upgradeable MOLLE cummerbunds with pocket, etc. are part of this leading design. This vest also has an optional QUICK RELEASE system. This system is a quick, simple and effective 4-point back release system, that provides an instant release with the pull of an ambidextrous strap and is able to be re-assembled in less that 2 minutes.

FEATURES:
• Advanced Shoulder Pads
• Shoulder Strap Tunnel
• Left & Right Mic Tabs
• External top loading Plate & Trauma Pocket
• Front ID Placard field 3" x 9.5"
• Front and back wire routing ports
• Front split MOLLE Kangaroo Flap
• Back MOLLE Flap
• "Y" Internal Vent System
• MOLLE cummerbund G-Hook ladder adjustment system
• Reinforced Shoulder Straps and Drag Handle
• SPEAR/BALCS Ballistic cut
• Metal Tri-Glide hardware
• Rear ID Placard Field 3" x 9.5"
• Accommodates 10" x 12", 8" x 10" and 6"x 8" Spartan Plates size dependent
• Cummerbund Sizing SM-6XL

OPTIONAL UPGRADES
• Extended Advanced Shoulder pads
• Upgrade MOLLE cummerbund sleeve system with Bungee pulls, G-Hook ladder adjustment system
• AustriAlpin cummerbund-single side/double side closure
• Aspetto cummerbund- single side/double side closure
• Cummerbund ballistic inserts
• Ballistic Bicep, Throat, Collar, and Groin
• 4-point Back Quick Release System
• Interoperability with all accessories
